(b) EPA Letter (R. L. Morby) dated 26 August 1982,
received 01 September 1982 by J. C. Patterson

REGISTERED MAIL - RETURN RECEIPT

Dear Mr. Morby:

Your records are correct concerning our previous Resource Conservation and Recovery Act (RCRA) notification in respect to "Treatment, Storage, and Disposal" (TSD) for our Tract II (MOD 000818906) site.

At the time of this initial registration on 15 August 1980, we were performing a study of the logistics of containerized waste handling at this site. By the time that the Part "A" Permit Application was due (18 November 1980), we had completed our study, and concluded that we did not wish to register this specific site for storage. Therefore, we did not submit a Part "A" Permit Application.

At Region VII's request, we submitted a revised EPA Form 8700-12 for site MOD 000818906 (Tract II). This was forwarded to Mr. James L. Foil on 07 December 1981. Our revisions at that time pertained to the "Description of Hazardous Waste". Inadvertently, we checked the box for "Treat/Store/Dispose" in this revision.

Region VII K.C., Mo

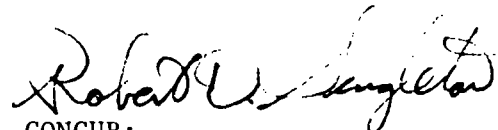

In order to clarify this situation, we wish to inform you that site MOD 000818906 - Tract II is a generator and transporter of hazardous wastes, and does not treat/store/dispose of any hazardous waste. Wastes on this site are not held longer than 90 days. Please revise your records to reflect this situation.

We hope that this information satisfies your referenced letter. If you have any questions, please contact us.

Sincerely yours,

MCDONNELL AIRCRAFT COMPANY
